

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THIRD BIENNIAL REPORT
OF THE
Commissioner of Taxation
OF WYOMING

1913-1914

THIRD BIENNIAL REPORT

OF THE

COMMISSIONER OF TAXATION

OF

WYOMING

1913-1914

JOHN MCGILL, COMMISSIONER

LARAMIE, WYOMING:
THE LARAMIE REPUBLICAN COMPANY,
PRINTERS AND BINDERS.
1914

5-27-27 MV
Received
CHEYENNE, WYO., November 1st, 1914.
To His Excellency, Joseph M. Carey, Governor of the State of Wyoming:

As provided by the eleventh paragraph of Section 221 of Chapter 23 of the Wyoming Compiled Statutes, 1910, I herewith submit the third biennial report of this office.

Very respectfully,

JOHN MCGILL,
Commissioner of Taxation.

Report of Commissioner of Taxation

RECOMMENDATIONS.

I would respectfully recommend that the Legislature enact a law creating a State Board of Tax Commissioners, to be composed of the Governor, Secretary of State, Treasurer, Auditor and State Tax Commissioner, giving them all the power of the present State Board of Equalization, full power over all taxable property and all assessors in the State, and to equalize *all classes* of property as between counties. Under the present law the State Board of Equalization have only power to equalize *real property* as between counties. I believe a board of this kind could accomplish a great deal toward securing more uniformity in taxation and would not add to the burden of the taxpayers by creating any new, high-salaried state officers.

I would also recommend the enactment of a law providing for an annual meeting of all the assessors of the State at the State Capitol, to confer with the State Board of Tax Commissioners on values of all classes of property in the State. The necessary expenses of the assessors in traveling to and from, and in attendance thereat, to be paid by the State upon presentation of proper receipts to the Auditor of State.

I would further recommend the enactment of a law providing that the State Treasurer shall collect the taxes on all car lines and transportation companies—other than railroad companies—doing business in the State, and pro rate the amounts collected to the counties interested. Under the present law each county treasurer collects from companies the amount due to their county. In some cases the tax amounts to only a few cents, and the expense for postage in sending the necessary notices amounts to more than the tax. It would save a lot of trouble and expense in collecting and would be a great convenience to the companies, as they would have to send only one check for all their taxes in the State instead of probably a dozen, as the law now is.

EXPENSE OF TAX COMMISSIONER'S OFFICE.

The Twelfth Legislature appropriated, for contingent fund of this office, the sum of \$7,000.00, of which the following has been expended to November 1st, 1914:
